

Europe In Motion (EIM)

From February 2010 to April 2012 we are working with three European festival organizations: Springdance (Netherlands), Imagetanz (Austria) and iDance (Turkey) to bring together international emerging artists.

These artists work together in a series of dialogue events as part of an international programme called Europe in Motion (EIM) funded by the European Union (EU).

The aim of the EIM programme is to support emerging talent by encouraging artistic development and critical debate, through an international exchange of practice with fellow dance and performance makers.

The programme consists of workshops and discussions and a public performance as part of the hosting organisation's festival, during a 10 day process. Through this programme, we have been able to offer the following artists the opportunity to engage in dialogue, share practice and performance and question the artform and how they practice within it:
